

Community Relations

Hannas endeavours to maintain a consistent and high profile as a professional contractor in the construction industry. Good management of our relationship with local communities is as important to our business success as the management of our operations.

The management of Hannas recognise the importance of cultivating and maintaining positive relationships with the local and broader communities in which we work. Through active participation with these communities we will provide net benefits to local residents, businesses and other parties affected by our projects.

By integrating Hannas Community Relations Policy into all facets of our projects, we seek to establish and prosper collaborative relationships with the community and stakeholders.

To facilitate this Hannas ensure that:

- Our interaction with communities is transparent and responsive
- We listen to community needs and expectations and seek regular feedback
- We demonstrate our commitment through respect for community views
- We set measurable targets and seek to continually improve our standards of community relations involvement
- Our community work is closely monitored and takes account of community perception of the effects and consequences of our activities
- We periodically review and revise our Community Relations Policy and procedures to maintain their relevance

Through the implementation of this policy, we will make a meaningful contribution to the communities in which we work and live.

Management are responsible for ensuring adherence to the provisions of this policy. All staff are responsible to assist Hannas in achieving the objectives of the policy.
